

Coach Evolve Programme Information

About Coach Evolve

Coach Evolve is a generic Auckland-wide, values-based coach development programme for active [Development Coaches](#) working in clubs, schools and the community from a range of sports. It aims to give coaches the latest knowledge, skills and confidence to be able to deliver life-changing experiences every time they coach.

By the end of Coach Evolve, coaches will be able to deliver fun, safe, effective and inspirational coaching experiences for their athletes.

This will be achieved by coaches:

- Learning how to live a values-based coaching approach
- Growing their personal coaching strengths and building their profile
- Receiving feedback to improve their coaching processes and styles
- Exploring strategies on how to connect with athletes and cater for different abilities
- Using coaching tools to expand their coaching repertoire

The Programme

Coach Evolve is structured around four regional workshops and four local group forums. Over the year coaches take part in a mix of presentations, discussions, practical sessions, individual and group feedback and opportunities for self-reflection to allow coaches to put existing and new coaching skills into practice. Coaches are invited to join an online group that provides additional resources and other valuable coaching information. Coaches can also discuss their experiences, provide support to each other and celebrate their achievements within the online group.

"I thoroughly enjoyed all of the workshops and took different things away from all of them. I now have a better understanding of how values lead to behaviours for myself and my athletes and how to create environments which accelerate skill development and personal growth. It was great to be able to discuss all things coaching with like-minded people."

- Coach Evolve, 2017

How to Apply

Interested coaches can apply for a place on Coach Evolve by filling in the online [Expression of Interest form](#).

Selection Criteria

Final programme selection will include a combination of coaches from team and individual sports, as well as ensuring an appropriate mix of gender and ethnic diversity. Strong consideration will be given to those that work within the identified local participation communities and with the following target groups; Young Girls 11-18 years, Māori, Pacific Island and Indian ethnicities. It is expected that coaches will be currently active in the development and support of athletes in the Development Coaching Community. Coaches will also need to be endorsed and supported by their respective Regional Sport Organisation or equivalent. This is simply an acknowledgement that the supporting organisation has recognised that the coach is currently coaching at the development stage.

Dan Keepa: Sport Waitakere Community Coaching Advisor

Dan has been in the sporting circles for most of his life. Although he has coached touch, football and rugby, his main passion as a player and coach lies with rugby league. He has worked for both Counties Manukau Rugby League and New Zealand Rugby League as a regional and national coach development manager as well as a talent Junior Talent Identification Coordinator with the Vodafone Warriors. Having coached professionally at both the provincial and national level, Dan has always stuck to the same coaching philosophy of - "it's never about me, it's always about them" - a philosophy he uses in his current role in developing coaches.
