

Cashmere High School App - An overview.

If wanting to change the selection for notification push alerts, click on the 'wheel' in the top right hand corner. This will take you to the selection of sports/ cultural and academic options that are currently available.

The absentee button, offers parents a chance to either ring the school with regards to an absence or send a message by email, explaining why a student is away.

The school info section currently contains the information seen at the front of the school diary. Other important documents that our community may need access to can be loaded here.

School Notices can be found via the app - this is a great way to access them in a quick and easy way. For use by teachers, parents and students.

The Kamar button is specifically for our Cashmere community of parents and students, to access the web portal to retrieve information such as absences and NCEA information. The Moodle button only accesses the site news, so parents can see up-to-date information related to what is happening at school.

The Cashmere High School App can be downloaded for free from <http://is.gd/bLUNxP> and contains the link for both iPhone and Android devices, or you can search for 'Cashmere High' in the app store.
