

Control ECU's and Approved Suppliers

Three ECU's are approved. "ECS" is to control ignition only (Stockcars), "Link" to control ignition and electronic Fuel Injection only (Streetstocks, Production Saloons, and Minisprints with 4AGE Toyota Engine), "MicroTech" is for control ignition and electronic Fuel Injection.

Option One: ECS

The two ECU options are available, depending on the individual requirements of the Competitors. The units are clearly labelled as SNZ approved computers and are tamper proof to discourage illegal modifications of the units. Wiring looms are available depending on what engine you are fitting to.

Each unit has an individual SNZ serial number recorded by the manufacturer. Testing equipment enables SNZ Official's to inspect ECU's at any time and verify compliance and legality with the regulations.

Suppliers of ECS SNZ Control ECU's:

Rotorua:
Reconz Auto Machinists
71 Riri St.
Rotorua
Ph 07 349 4212
Terry O'Connor

Christchurch:
Wirelink Ltd
7/37 Washbourne Rd
Sockburn
Ph 03 341 7070
Chris Woods

Palmerston North:
The Head Shop
26 Domain St
PN
Ph 06 355 5070
Bryan Hartley

Dunedin
Turbo Shop
578 Princess St.
Dunedin
Ph 03 477 3148
Mike Lynn

Christchurch:
Edge Parts and Performance
278 Main South Road Hornby
Christchurch Ph 03
349 4144
Andrew Naven

Option Two: Link

Link are the second supplier of ECU's and come with a standard 2.5m wiring loom. The ECU must be set to the standard OE settings and minor tuning adjustments only can be carried out. SNZ have a laptop to check settings and RPM limiters etc as per the rules.

Approved Link models are:

- Atom
- Storm
- Xtreme
- Monsoon

Current Link ECU dealers are as follows with full details available at the following web address, www.linkecu.com/dealers/new-zealand/

Option Three: MicroTech

MicroTech are the third supplier of ECU's. MicroTech has been approved for use subject to the ECU restrictions of the class.

Approved MicroTech models are:

- LT-9c
- LT-10c
- LT-15c
- LT-16c

MicroTech ECUs approved for Speedway use will have a Speedway Identification etched into them, if the unit does not have the Identification then it is not approved.

MicroTech models **must** be purchased through MicroTech New Zealand Head Office.
