PURPOSE & OBJECTIVES

WHAT IS THE PURPOSE OF THE NZF TALENT DEVELOPMENT PROGRAMME?

The New Zealand Football (NZF) Talent Development Programme provides an aligned, co-ordinated approach to the development of high potential youth footballers, aged 13-17 years. The programme outlines the standards that clubs must meet as a part of gaining a New Zealand Football Regional Youth League Club License. Its main aim is to provide a challenging, structured programme for players, in an enjoyable environment that maximises player development.

It is highly likely that the game in the future will be quicker, more technical and tactical, and the demands on our younger players will be elevated. Through a planned, consistent approach to training, based around principles of Long Term Player Development, the NZF Talent Development Programme will provide a platform for players wishing to reach their potential.

OBJECTIVE 1
Produce better footballers in New Zealand by increasing the number and quality of training opportunities for more players aged 13-17.

OBJECTIVE 2
Provide clear training guidelines based on international best practice for youth footballers who are showing potential to play at a higher level.

OBJECTIVE 3
Create a clear aspirational pathway for youth footballers in New Zealand.
What is the NZF Talent Development Programme?

New Zealand Football’s National Player Development Framework provides a cohesive structure in order to meet the needs of players across all levels of the game. There is a clear distinction between the progressive stages within the framework, with each stage having clear objectives, guidelines and structures so that the workforce is better equipped to meet the needs of our players, right up to adult football.

Regardless of motivation or ability levels, players should enjoy a high-quality experience at all stages. The framework aims to meet the needs of all young players, while ensuring they can move across the spectrum from community recreational football right through to the talented performer pathway.

As you can see from the framework diagram, the Youth Framework offers programmes across all four pathways in order to cater for players in different stages of their development.

The “Talent Perform” and “Talent Excel” pathway should offer players, who are showing potential, a higher level of provision that meets their development needs and challenges them at an appropriate level. The NZF Talent Development Programme will provide a season long extensive training and games programme under the guidance of appropriately qualified coaches and will be the expected standard of those clubs operating in the Regional Youth Premier Leagues and wishing to obtain a New Zealand Football Regional Youth League Club License.

New Zealand Football, in partnership with our seven regional Federations use the Federation Talent Centre (FTC) Programme as a national talent identification network. The primary environment to identify players will be the Regional Youth Premier Leagues and each Federation with have their own identification network to scout players within their region.

The FTC Programmes around the country will have a consistent connection to NZF’s Technical Staff and National Age Group Coaches. Regionally identified players will be brought into age group national teams at various times throughout the year to work with the National Age Group Coaches in order to expose the players to the foundations of the All Whites and Football Ferns.

The Regional Youth Premier Leagues will be the foundation for quality player development and in conjunction with the FTC and National Age Group Teams will form the structure of the youth talented player pathway.
New Zealand Football will encourage players with high potential and who wish to progress their football to the next level to access a club or regional entity that holds a Regional Youth League Club License. This will allow these high potential players to train and play together in the same environment with the assurance that they are in a development environment that meets high standards.

**TALENT DEVELOPMENT PROGRAMME CRITERIA**

- **Playing Philosophy**
  - Must have a Playing Philosophy and Team Model

- **Age groups offered**
  - Boys 13, 14, 15, U17. Girls U14, U16

- **Number of players per age group**
  - Maximum 18 players

- **Player Eligibility**
  - 12/18 home grown* players

- **RAE offset**
  - Must have no more than 10 players in each age group if duel banded

- **Number of training contacts**
  - 3 minimum – 4 maximum sessions per week**

- **Number of game contacts**
  - 1-2 games per week

- **Injury prevention contacts**
  - Minimum of 2 per week

- **Total number of contacts**
  - Maximum of:
    - 4 trainings + 1 game + 2 IP/S&C sessions
    - 3 trainings +2 games + 2 IP/S&C sessions

- **Programme duration**
  - Minimum of 30 contact weeks annually

- **Training area**
  - Half pitch minimum

- **Mandatory shut down period**
  - 6 weeks during December and January

- **Player to coach ratio**
  - Maximum of 12:1

- **Technical Director Qualification**
  - NZF B Licence + Emergency Aid

- **Team Coach Qualification**
  - Head Coach: Youth Level 3 Coaching License + Emergency Aid
  - Assistant Coach: Youth Level 2 Coaching Award + Emergency Aid
  - Goal Keeper Coach: GK Level 1

- **Curriculum Delivered**
  - NZF Talent Development Programme or equivalent

- **Maximum cost per session**
  - $14 per session

- **Player feedback meetings**
  - Minimum of 3 meetings annually

- **Player Education Workshops**
  - Minimum of 3 meetings annually

- **Support/Evaluation Visits from Federations**
  - Minimum of 3 visits annually

- **Club/School Link**
  - Must have signed MOU agreement with local clubs and schools

- **Players released for Federation or National Activity**
  - Maximum of 20 days during February and October (excludes official FIFA Activity)

*Home grown players are players that have been registered with the club or MOU club/school for 2 or more seasons.

**There will be an expectation that Clubs have facilities available to ensure trainings are not cancelled. This could include, floodlit, artificial or indoor (futsal) venues.
NZF TALENT DEVELOPMENT PROGRAMME DELIVERY METHODS cont...

FEDERATION TALENT CENTRE (FTC)

The role of the FTC is to identify and (where relevant) develop players within the federation. Federations will develop a scouting network in conjunction with NZF in order to identify high potential players and invite them into short periods of contact with other players of similar ability. Activities such as training, camps and tournaments will provide players opportunities to challenge themselves at a higher level and will enable Federation and NZF staff to continually monitor player progress.

Any activity held by the Federation will not conflict with the Regional Youth Premier League competition and will be conducted with the following criteria:

<table>

NZF NATIONAL AGE GROUP TEAMS

New Zealand Football will operate a number of National Age Group Teams. These will have contracted, dedicated coaches. The National Age Group Teams will be for identified players from across NZ to come together at a national level to work with and be assessed by the National Age Group Coaches and National Technical staff for the purpose of being selected for future National Teams. This programme could include camps, tournament and tours and will be conducted using the following criteria:

<table>

GUIDING PRINCIPLES

PROVIDING A PLATFORM FOR PLAYER DEVELOPMENT

All New Zealand Football talent programmes, including NZF Talent Development Programme, are designed to help players reach their potential and also to enhance the quality of the next generation of All Whites and Football Ferns. Therefore, guidance provided is focused on producing players who are able to play the game in the ‘NZF Way’, stated in our Playing Style Statement:

“A proactive, effective, controlled and incisive possession based style of attacking play using individual and combination play to create and score goals. Underpinned by a quick transition mentality and defending through aggressive collective, intelligent pressing. The point of difference is our superior team culture and traditional Kiwi strengths combined with astute tactical cohesion.”

NZF recognise that we need to develop our footballers as players as well as people, and that the focus of training should cover all areas of the four corner model. The Technical, Tactical, Mental and Physical components are distinguishable but not separable. They should be developed in a challenging environment where age appropriate values create a culture that promotes learning and enjoyment.

The following principles ensure the appropriate training environment for holistic player development within NZF Talent Development Programmes:

1. QUALIFIED COACHING

It is important that players have access to coaches who are suitably qualified to help guide them to reach their highest potential. Football is constantly evolving and it is important that coaches continually stay up to date with world best practice on how to effectively coach and play the game. In a NZF Talent Development Programme, players can be confident they are being coached by a qualified coach who understands the principles of long term player development, is accredited through NZF’s coach education network, holds an emergency aid certificate and has been through appropriate vetting systems.

2. TRAINING THAT LOOKS LIKE THE GAME

Football is a game of constant, quick-changing situations. Not one situation is the same as the one before or after. The complexity of football situations is determined by football specific resistances. The player has to do something with the ball, which requires technique or without the ball which requires positioning and communication. This will be based on what they perceive (P) through seeing, hearing and feeling (how much time and space they have; the direction to go; the position of the ball; teammates or opponents, etc). Based on these football specific resistances, the player has to then decide (D) which action to take (pass, travel with the ball, tackle, run into space, etc). Finally, the player must execute (E) the action.

For a player to develop the ability to perceive, decide and execute well, they should be exposed to the random, variable and externally paced nature of football. In order to do this, training should involve all four moments (Attacking, Defending and Transitions) and place players in scenarios that they will face in the game. Linking this PDE chain on a consistent basis is a key attribute of footballers at the highest level and all NZF Talent Development Programmes should incorporate this.

3. RECOGNISING DEVELOPMENT AGE

The timing and tempo of maturation vary greatly between individuals during puberty and individual differences in development age will emerge within the same chronological age group. Players with the same chronological age can differ by two to four years in their development age. Due to this, player development is dynamic and non-linear and it is important that these differences are taken into consideration during the identification and development of players with high potential. Late maturers should be given as much attention as early maturers so that all players have the chance to reach their development potential.

4. BUILD A CULTURE OF EXCELLENCE/REACHING AN UNKNOWN POTENTIAL

An environment of learning and development across the four corners of player development needs to be created in order to help players constantly strive to reach an unknown potential. Coaches are to encourage players to focus on long term development over immediate outcomes by consistently asking them to operate at the limit of their current abilities. Players take part in task based exercises with a focus on building a growth mind-set that embraces mistakes as key learning opportunities.

5. PERIODISED TRAINING PROGRAMME

Periodisation is the division of your overall training into periods to accomplish different goals. Youth development programmes should focus on the long-term development of the player in order to prepare players to play a specific style of football. Detailed periodised planning should be undertaken by coaches and clubs in order to meet the long term technical, tactical, physical and mental needs of players in order to prepare them for senior football. The NZF Talent Development Programme uses the NZF playing style statement and team model as the reference point from which our coaches develop players who can play according to the NZF playing style.

6. EFFECTIVE FEEDBACK FOR PLAYERS

Players in the youth stage will have accelerations and decelerations in their development. In order to support their progress, coaches should provide informed feedback that is linked to the playing philosophy and the team model and is relevant to the task being performed and the overall objective of the practice. Players are instilled with a growth mind-set through coaches providing feedback based upon player effort as well as the successful/unsuccessful outcome of the task.

7. ONE ENVIRONMENT

NZF believes the development of players with high potential should take place in one environment. This enables the philosophy and methodology of coaching to be aligned throughout the programme which ensures consistency of learning. It also enables coaches to better monitor the physical work load of players throughout the training programme to ensure players are challenged and progressing physically whilst maintaining a balance of training and playing. Where players operate across multiple environments, it is vitally important there is quality communication across those environments to ensure the best development outcome for each individual.

NEW ZEALAND FOOTBALL TALENT DEVELOPMENT PROGRAMME
CHARACTERISTICS OF A YOUTH FOOTBALLER

During their youth years, players are in or entering puberty, a phase of radical mental and physical change. It is important to know that, on average, females enter puberty about two years earlier than males.

Selection is a natural component of team sport, however; NZF Talent Development Programme coaches should be aware of individual player differences when selecting and retaining players. Late matures should be given as much attention as early matures so that all players have the chance to reach their development potential.

There are some factors that all coaches should be aware of when selecting players.

RELATIVE AGE EFFECT (RAE)

The RAE refers to the scenario where the more mature players within an age group are selected. Typically this is evident through a bias to the first quarter of the selection window (i.e. when players are selected on year of birth then there is a disproportionate bias towards players born in January, February and March). This is especially evident when groups are dual age banded. This in turn leads to the selected players:

- Accessing better coaching
- Working with more challenging team mates and against more challenging opponents
- Having access to more competitive games.

While this decrease in coordination and strength can lead to a temporary slowdown in a player’s physical and technical development, the rapid intellectual development means they have the ability to operate within and understand far more complex situations as well as increase their understanding and appreciation for teamwork. It is also vitally important that there is a focus on player welfare. The inclusion of programmes such as ongoing injury prevention, appropriate strength and conditioning, mental skills techniques and nutrition will contribute to the overall development and welfare of the player.

CONSIDERATIONS FOR IDENTIFYING PLAYERS WITH HIGH POTENTIAL

Selection is a natural component of team sport, however; NZF Talent Development Programme coaches should be aware of individual player differences when selecting and retaining players. Late matures should be given as much attention as early matures so that all players have the chance to reach their development potential.

There are some factors that all coaches should be aware of when selecting players.

RELATIVE AGE EFFECT (RAE)

The RAE refers to the scenario where the more mature players within an age group are selected. Typically this is evident through a bias to the first quarter of the selection window (i.e. when players are selected on year of birth then there is a disproportionate bias towards players born in January, February and March). This is especially evident when groups are dual age banded.

This in turn leads to the selected players:

- Accessing better coaching
- Working with more challenging team mates and against more challenging opponents
- Having access to more competitive games.

While this decrease in coordination and strength can lead to a temporary slowdown in a player’s physical and technical development, the rapid intellectual development means they have the ability to operate within and understand far more complex situations as well as increase their understanding and appreciation for teamwork. It is also vitally important that there is a focus on player welfare. The inclusion of programmes such as ongoing injury prevention, appropriate strength and conditioning, mental skills techniques and nutrition will contribute to the overall development and welfare of the player.

ICEBERG EFFECT

The Iceberg Effect is where ‘child geniuses’ seem to have ‘natural talent’. These players have often already accumulated an extraordinary amount of practice in comparison to their peers. They may have an older sibling or access to regular training that others don’t. Caution should be taken when measuring others against these players. We must allow others who have yet accumulate the same amount of practice an opportunity to do so. There also needs to be care taken in how we encourage these advanced players. Focus should be put on praising effort and not talent as this has been found to lead to a growth mind-set, which is an important factor in long-term development and achievement.
HOW TO RUN A NZF TALENT DEVELOPMENT PROGRAMME

The NZF Talent Development Programme outlines the standards that clubs must meet as a part of gaining a New Zealand Football Regional Youth League Club License.

The NZF Talent Development programme is developed by NZ Football and monitored by NZF’s seven regional Member Federations. The regional Member Federations throughout New Zealand are responsible for supporting clubs to meet the standards of the NZF Talent Development Programme.

The role of the Technical Director is to oversee the Talent Development Programme and ensure that all aspects of the programme are running smoothly and to the required standard including:

- Programme Development
- Player Development
- Coach Development
- Parent Development
- Club Development

The Technical Director should be the point of contact for all footballing matters and liaise with the federation on a consistent basis in regards to all aspects of the programme including all minimum requirements of the NZF Talent Development Programme.

It’s vital to ensure a consistent standard throughout New Zealand. One key safeguard are the NZF Talent Development Programme templates provided at the back of this document that aim to make consistent delivery as easy as possible, e.g. the Minimum Requirement Form (Appendix 1). In addition to this, a Member Federation staff member will visit those clubs wanting to meet the NZF Talent Development Programme Criteria and use Appendix 1 as the quality control form during appraisals. Clubs are also expected to use the NZF Talent Development Programme curriculum provided, or create sessions that are in line with the NZF Talent Development Programme curriculum and principles and that are agreed by the Member Federation.
New Zealand Football encourages coaches to consider the Technical, Tactical, Physical and Mental components of an individual's development when designing and conducting training sessions. It is important to understand that the four corners are distinguishable but not separable and while a particular training sessions may focus on one of the corners, coaches must challenge all corners in a challenging, safe and enjoyable training environment.

Players of the future will be faced with limited time and space and will need to be able to consistently perceive any given situation, decide what to do and execute the necessary action quickly and successfully. It is important for players to consistently experience these problems during training and that they are related as closely as possible to real game situations.

New Zealand Football’s phased approach, aligned to a national curriculum, will help create players of the future. The Game Training phase is designed to enable players to learn how to use the core skills they developed in the Skill Acquisition phase to play the game within the structure of 11 v 11. This will help prepare players for the Performance Phase when they reach senior football. As players progress into the senior framework the foundation of practice completed at the 13-17 year age groups should give them the ability and confidence to play in line with NZF’s philosophy in the context of the modern football game.

Within the game training phase the curriculum focuses on the four Main Moments of the game, the Key Principles within each of the Main Moments and the tasks of the team and the individuals (across all four corners) within that moment all derived from the NZF Playing Style Statement:

“A proactive, effective, controlled and incisive possession based style of attacking play using individual and combination play to create and score goals.

Underpinned by a quick transition mentality and defending through aggressive collective, intelligent pressing.

The point of difference is our superior team culture and traditional Kiwi strengths combined with astute tactical cohesion.”

- **Player Actions:** Positioning, Receiving the Ball, 1 v 1, Travel with the ball, Striking the Ball, Communication

Please refer to the player profiles in the NZF National Curriculum to see some examples of the player tasks and actions expected of players in order to execute the NZF playing style.
NZF TALENT DEVELOPMENT PROGRAMME CURRICULUM cont...

STRUCTURING PRACTICE

NZF Talent Development Programme sessions are designed using the Game Training methodology. All four Main Moments will be evident, however, there will be a specific focus on a Key Principle within a particular Main Moment from when the player arrives at practice until they leave. This will result in players understanding how to execute the key principle in the context of the whole game.

BEFORE TRAINING. FIFA 11+ WARM UP

- New Zealand Football recommend players arrive 30 minutes prior to training & perform the FIFA 11+ in order to prepare themselves for the training ahead.
- New Zealand Football endorses the principle of safe warming up and promote the use of the FIFA 11+ programme prior to two training sessions a week.
- It is designed to be delivered by the team coach or by the players.
- It incorporates running, active stretching, balance and strengthening exercises.
- Wherever possible, include a ball.

PART 1. PASSING PRACTICE

- This time is used to prepare the players for the upcoming activity, technically and mentally, as well as physically.
- This time is also used to introduce the tactical theme of the session, providing hidden learning and introducing the specific passing, first touch and football-related movements designed to help achieve the session objective.

PART 2. POSITIONING GAME

- The theme is developed by the introduction of limited opposition, providing opportunities for appropriate perception, decision and execution in a realistic setting.
- Passing practices with added game-related resistances.
- Designed to further develop passing and first touch under pressure.
- Players are now required to develop, improve or reinforce their positioning, handling speed and decision-making.
- They are always opposed, but usually with numerical superiority to the attacking team. The degree of opponent resistance can be gradually increased.
- The coach structures the exercise to encourage specific behaviours and achieve specific outcomes, related to the session objective.

PART 3. GAME TRAINING

- Specific and game-related exercises designed to develop, improve or reinforce team understanding and player roles.
- Has direction and includes realistic opposition that can be gradually increased.
- Is situated in the area of the field where the desired actions usually take place.
- Challenges such as modifications and constraints can be placed on the players (corridors, additional boundary lines, limited touches, restricted areas, etc).
- Each team plays towards targets (small goal, big goal, cross a line in possession, etc).

PART 4. TRAINING GAME

- A game involving two even teams (or a neutral player working with the team in possession) used to conclude the session.
- These should involve teams with even numbers or one neutral so the team in possession has a one person advantage.
- Goals for both teams (either big or small goals).
- The 4 main moments for both teams (attack, defend, transition).
- Players in game-specific positions and areas.
- A real game or a section of it, with as many of the 11v11 rules present as possible.

USE FOOTBALL TO GET FIT4FOOTBALL

The football season in New Zealand is shorter than in many established nations. It is therefore vital to maximise the time that players train and play.

If the purpose of training is to improve match performance then training activities must be football-related and resemble the match. If all of the training is related to achieving a clear objective then the chance of transferring this objective into the match performance is greatly increased.

This is also true of physical conditioning and coaches should aim to ensure that players are allowed to develop in this corner but whilst taking part in football-related activity. This will result in multiple benefits from training across more that one of the Four Corners.

Football Training = Football Conditioning
Football Conditioning = Football Training

DEVELOP THE PERSON AS WELL AS THE PLAYER

The holistic approach also develops the mentality of the player, helping them to maximise their opportunity for development. Particularly in the higher levels of the game, player mentality is key and can be the determining factor in unlocking player potential.

When the game resistances are present the player’s mental skills are being developed. With the correct level of challenge and good feedback the confidence, composure, concentration and character of each player can be developed.

Football Training = Football Thinking
Football Thinking = Football Training
PLANNING A NZF TALENT DEVELOPMENT PROGRAMME

PLANNING GUIDELINES

The Game Training phase presents us with an opportunity to utilise a four-year programme to develop an understanding of the Key Principles, Team Tasks and Player tasks within all four Main Moments, as well as consistently improving the core skills within the team setting.

By working backwards we can outline in a structured way the logical steps required to produce players at 17 years of age (the end of the Game Training Phase) who can play according to the Playing Style.

In other words, coaches have four years help teach skilful 13 year-olds how to use functional game skills in the context of the Team Model, better preparing them for Performance Phase football.

In order to do this, detailed planning should be undertaken and NZF recommend the following:

• Create a season template for your Training Programme
• Divide the Game Training Phase into four separate years
• Divide each year into 6-week cycles
• Label each cycle and week (for example, ‘Cycle 3, Week 4’)
• Insert the competition games and expected pre-season games
• Mark the days on which training sessions for that age-group will take place
• Plan the tactical, tactical mental and physical content for each cycle

To help us determine which Main Moments we prioritise we should refer to our playing style statement:

*A proactive, effective, controlled and incisive possession based style of attacking play using individual and combination play to create and score goals.*

Underpinned by a quick transition mentality and defending through aggressive collective, intelligent pressing.

The point of difference is our superior team culture and traditional Kiwi strengths combined with astute tactical cohesion.*

NZF would like to develop players who can play a proactive, effective, controlled and incisive possession based style of football and therefore recommend more time is allocated to the attacking moment.

Whilst focusing more on attacking play we must be careful not to neglect the other Main Moments. NZF believe that pro-active, creative attacking, is more difficult to learn that aggressive, collective and intelligent defending and that the two transition moments can be addressed in the same training session, because when one team is in transition to attack, the other is in transition to defend.

Coaches should incorporate the transition moments within every attacking and defending session so players are conditioned to see the links between the main moments. It is also important that this structure is evident in order to develop players with great PDE.

Our rough guide on Main Moment allocation is that for every 6 sessions the following applies:

<table>
<thead>
<tr>
<th>DAY</th>
<th>MON</th>
<th>TUES</th>
<th>WED</th>
<th>THURS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Week 1</td>
<td>Attack</td>
<td>Attack</td>
<td>Defending</td>
<td>Defending</td>
</tr>
<tr>
<td>Week 2</td>
<td>Attack</td>
<td>Attack</td>
<td>Defending</td>
<td>Transition</td>
</tr>
<tr>
<td>Week 3</td>
<td>Attack</td>
<td>Attack</td>
<td>Defending</td>
<td>Transition</td>
</tr>
<tr>
<td>Week 4</td>
<td>Attack</td>
<td>Attack</td>
<td>Transition</td>
<td>Defending</td>
</tr>
<tr>
<td>Week 5</td>
<td>Attack</td>
<td>Attack</td>
<td>Transition</td>
<td>Defending</td>
</tr>
<tr>
<td>Week 6</td>
<td>Attack</td>
<td>Defending</td>
<td>Attack</td>
<td>Transition</td>
</tr>
</tbody>
</table>

A whole range of possible considerations might lead to a different order to this, but the key points are:

• Training is planned in 6-week cycles
• The Main Moments are rotated using a designated allocation which is based on the Playing Style

We now have a series of main headings for attacking training sessions. Following these headings ensures that we are working towards developing the Team Model according to the Playing Style.

Teaching the Key Principles within the four Main Moments to develop the Playing Style

We have allocated Main Moment themes to every training session, and the breakdown was based on the Playing Style statement.

Now we can add more detail to the contents of each session by choosing which Key Principle will be developed.

Using attacking as an example, we refer back to the Team Model and find the Key Principles:

<table>
<thead>
<tr>
<th>MAIN MOMENT</th>
<th>KEY PRINCIPLES</th>
</tr>
</thead>
<tbody>
<tr>
<td>ATTACKING</td>
<td>Controlled Possession – build up</td>
</tr>
<tr>
<td></td>
<td>Incisive Possession – penetration into the middle and final third</td>
</tr>
<tr>
<td></td>
<td>Combination Play – in the middle and final third</td>
</tr>
<tr>
<td></td>
<td>Individual Play – to create goal scoring opportunities</td>
</tr>
</tbody>
</table>

We now have a hypothetical example of a six week cycle where a team trains four times per week with one game on Saturday (24 total sessions):
**PLANNING A NZF TALENT DEVELOPMENT PROGRAMME cont...**

### CYCLE 1

#### ATTACK

**Total Sessions per cycle = 12**

<table>
<thead>
<tr>
<th>CYCLE 1 MAIN FOCUS: Develop ability to play out from the back</th>
</tr>
</thead>
<tbody>
<tr>
<td>KEY PRINCIPLES ALLOCATION</td>
</tr>
<tr>
<td>Cycle</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>Controlled possession - Build-Up</td>
</tr>
<tr>
<td>Incisive Possession - Penetration in The Middle Third</td>
</tr>
<tr>
<td>Combination Play in the middle and final third</td>
</tr>
<tr>
<td>Individual Skill to create and convert scoring chances</td>
</tr>
</tbody>
</table>

#### DEFENDING

**Total Sessions per cycle = 7**

<table>
<thead>
<tr>
<th>CYCLE 1 MAIN FOCUS: Win the ball back as close to the opponents goal as possible</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

#### DEFENDING

**Total Sessions per cycle = 5**

<table>
<thead>
<tr>
<th>MAIN FOCUS: Transition to Attack</th>
</tr>
</thead>
<tbody>
<tr>
<td>KEY PRINCIPLES ALLOCATION</td>
</tr>
<tr>
<td>Cycle</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>Transition into defence</td>
</tr>
<tr>
<td>Transition into attack</td>
</tr>
</tbody>
</table>

We can now allocate our Main Moments and Key Principles to the cycle:

<table>
<thead>
<tr>
<th>DAY</th>
<th>Week 1</th>
<th>Week 2</th>
<th>Week 3</th>
<th>Week 4</th>
<th>Week 5</th>
<th>Week 6</th>
</tr>
</thead>
<tbody>

<td></td>
</tr>
<tr>
<td>Saturday</td>
<td>Pre-season Game</td>
<td>Pre-season Game</td>
<td>Pre-season Game</td>
<td>Pre-season Game</td>
<td>Game</td>
<td>Game</td>
</tr>
</tbody>
</table>

We can now apply the same process to the other Main Moments.

A key point to remember is that devoting more time to a specific aspect of the Team Model for six weeks will lead to better learning of that aspect.

Cycle 2 can be planned to focus on other Key Principles, or to further reinforce and extend the learning of Cycle 1 by repeating the programme (or a combination of both, depending on team progress).

The decisions to be made next are:

- How to progressively develop the Main Moments and Key Principles over the cycles of one season
- How to progressively develop the Main Moments and Key Principles over the four years of the phase

These are the challenges for Technical Directors and Coaches and there is no magic formula to follow. However, some guidelines are:

- Planning is critical
- Use a step-by-step and year-by-year approach to develop players for the Performance Phase
- The plan is your guide, but do not be too strict in following it, you may need to adjust it based on how the players are developing
- Your annual plans will improve from year to year with experience and learning from mistakes

Please see an example on the next page of an entire 36 week (9 month) training programme. The six week cycles are based on the assumption of four training sessions per week on Monday-Thursday, and one game on a Saturday.

</tr>
</tbody>
</table>

**Note:** The above table includes key dates and events for each week, such as ANZAC Day, Good Friday, and Youth Licence. The programme is designed to be flexible and adaptable to the needs of the players and coaching staff.
THE ROLE OF A COACH

Being the coach of talented players should be viewed as a privilege. You have been recognised as being a specialist in your field and have been tasked with the development of the players who play under your guidance. You will have an everlasting influence not only on how the players train and play the game, but also the mind-set in which they approach their development.

High quality coaching plays a crucial role in the long term development of youth players. Creating a positive learning environment, designing relevant training sessions and providing appropriate feedback will instill high levels of intrinsic motivation in players.

The Game Training Phase focuses on taking the core skills developed during the Skill Acquisition Phase and learning how to apply them within a team environment. This phase introduces 11v11 football to prepare the players for the senior game. Players are made aware of the specific team and player tasks to help the team perform during the Main Moments and Key Principles with the focus on the development of the individual within the team setting. Training should resemble the game as much as possible so players execute what they have learnt during training when playing.

It is important coaches combine their knowledge of the game with an understanding of the characteristics of youth players in order to create a culture of excellence which helps players to build a growth mind-set that embraces mistakes as key learning opportunities to ensure players have the best possible chance of reaching their potential.

Becoming an effective team coach, like learning to be a player, is a process that takes a lot of time, effort and practice. It is important that coaches, like players, adopt a growth mind-set and challenge themselves by accessing ongoing learning and education.

TALENT DEVELOPMENT PROGRAMME SESSIONS LIBRARY

Provided in the following section are examples sessions using the community training structure. All sessions are designed with the aim of creating players for the future game, in line with New Zealand Football’s playing philosophy.

All practices can be altered to change the Main Moment (i.e. when a team is building from the back the opposing team will be pressing from the front) and can be progressed or regressed easily to meet player ability. The role of the coach is to bring the sessions to life.

Coaches are encourage to design their own practices based on the principles of the Youth Framework and using the Game Training structure.

All sessions provided have been designed using 18 players (16 outfield and 2 goal keepers). Examples have been given that show how goal keepers may or may not be involved in all parts of the session.
SEASON 1

PLAYING MOMENT | ATTACKING | FOCUS BUILDING FROM THE BACK

1. WARM UP / PASSING PRACTICE

**ORGANISATION**
- Create an area up to 44 x 44m. Modify the area depending on the number and ability of your players
- Divide the pitch in quarters using cones
- Using different colour cones, create gates as in the diagram
- Divide the players into 4 even teams
- Each team of 4 start in a different half of the area
- Place spare balls around the outside

**EXPLANATION**
- Each team is facing a different direction (N, S, E, W)
- Ball starts from the deepest player
- Each team is trying to progress through the gates (cones) by the wide player receiving the ball and dribbling through the gate
- As the wide player travels through the gate, all players transfer to the other half and organize themselves into starting positions to start the pattern again the opposite way
- Teams in opposing directions should try and go through the gates at a similar time (i.e. if the team opposite you goes through a gate then your team should quickly try and go through a gate also)

**POSSIBLE PROGRESSIONS**
1. The wide player must travel through the gate using their first touch
2. Opposing teams cannot travel through the same gate at the same time
3. If a gate is blocked from natural player movement, you are unable to travel through it and must quickly find the other gate
4. If both gates are blocked, you can dribble over half way anywhere along the line

2. POSITIONING GAME

**ORGANISATION**
- Create an area up to 44 x 44m. Modify the area depending on the number and ability of your players
- Divide the pitch in half using cones
- Divide the players into 3 even teams and one neutral player
- Have a target player on each end which should be the GK
- Place spare balls behind the target players

**EXPLANATION**
- The defending team (red) can have 4 players trying to win the ball and one player in the opposite half
- Once the team in possession (blue) goes over half way, they are now trying to pass the ball into the opposite target player. The remaining defender is active throughout this process
- If the team in possession (blue) successfully get the ball into the opposite target (yellow 1) the blue team retreats back to their half and the red team are now defending the yellows.
- If the defending team (red) win the ball at any time, they can score by getting the ball into the target player ahead of them. If this happens, the team that just won possession (red) becomes the team playing out and the team that just lost possession (blue) becomes the defending team
- The game is always in transition and should not stop unless the ball goes out
- At all times, players can use defensive target players to keep the play moving
- If the ball goes out, start with the target player of the team who’s throw in it would have been

**POSSIBLE PROGRESSIONS**
1. Players must travel over half way with their first touch
2. Players must receive the ball over half way (through ball)

3. GAME TRAINING

**ORGANISATION**
- Create an area up to 65 x 65m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams
- Create an area up to 55 x 55m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams
- Create a 20m x 10m zone on the half way line
- Divide the players into 2 even teams

**EXPLANATION**
- Play always starts with the GK defending the single large goal. The blue team is trying to build up from the back to either score in the small goals or get a player in possession in the zone on half way
- If the blue team win the ball they are trying to score in the single large goal
- If the ball goes out the play starts with the GK again.

**POSSIBLE PROGRESSIONS**
1. If the blue team tries to score in the small goal and misses, a coach at half way quickly plays another ball into the reds to attack
2. Play throw ins if the ball goes out

4. TRAINING GAME

**ORGANISATION**
- Create an area up to 55 x 55m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams
- Teams play in a 1-3-2-3 formation
- Large goals
- Place spare balls in the goals

**EXPLANATION**
- Regular game with regular rules

**OUTCOMES**
- Passing, receiving, dribbling, awareness
- Playing under pressure
- Understanding of how to spread out within a space to maximize ball movement and to spread the opposition defenders
- Understanding combinations within the back four and midfield players
- Understanding how speed of play can be used to create space when building from the back
SESSION 2

PLAYING MOMENT  |  ATTACKING  |  FOCUS: COMBINATION PLAY IN WIDE AREAS

1. WARM UP / PASSING PRACTICE

**ORGANISATION**
- Create an area up to 44 x 36m or double the 18 yard box
- Divide the pitch in half
- Put flags or mannequins on the corner of the 18 yard box
- Splits players up so there are even numbers to the side of the goals, one player at each flag and players in the middle to finish on goal
- Balls to the side of the goals with the players

**EXPLANATION**

Pattern 1
- Both balls start at the same time with player 1 passing the ball into player 2
- Player 2 receives the ball and passes outside the flag, dribbles down the edge of the 18 yard box and crosses to players 3 and 4 who try to score
- Player 1 moves to player 2’s starting position. Player 2 moves to the back of the line closest to the goal they just crossed the ball towards.

Pattern 2
- Both balls start at the same time with player 1 passing the ball into player 2
- The two players perform a wall pass around the flag.
- Player 2 should then try and cross the ball in one touch to players 3 and 4 who try and score.
- Players rotate the same.

Pattern 3
- Both balls start at the same time with player 1 passing the ball into player 2
- Player 2 passes inside to player 3 or 4 while player 1 overlaps player 2
- Player 3 or 4 then pass back out wide to the overlapping player 1
- Player 1 crosses to players 3, 4 and 2 who try and score.
- Players rotate the same

Pattern 4
- Players can choose any of the above three patterns
- Rotate the players who are attempting to score
- Rotate which side the crosses are coming from

2. POSITIONING GAME

**ORGANISATION**
- Create an area up to 44 x 36m or divide the 18 yard box
- Divide players into 2 teams, one with right sided players, and the other with left sided players.
- Divide the pitch in half
- Put flags or mannequins on the corner of the 18 yard box
- Create 4 wide areas 8 x 18m
- Balls to the side of the goals with the players

**EXPLANATION**

Pattern 1
- Both balls start at the same time with player 1 passing the ball into player 2
- Player 2 passes inside to player 3 or 4 while player 1 overlaps player 2
- Player 3 or 4 then pass back out wide to the overlapping player 1
- Player 1 crosses to players 3, 4 and 2 who try and score.
- Players rotate the same

Pattern 2
- Both balls start at the same time with player 1 passing the ball into player 2
- The two players perform a wall pass around the flag.
- Player 2 should then try and cross the ball in one touch to players 3 and 4 who try and score.
- Players rotate the same.

Pattern 3
- Both balls start at the same time with player 1 passing the ball into player 2
- Player 2 passes inside to player 3 or 4 while player 1 overlaps player 2
- Player 3 or 4 then pass back out wide to the overlapping player 1
- Player 1 crosses to players 3, 4 and 2 who try and score.
- Players rotate the same

Pattern 4
- Players can choose any of the above three patterns
- Rotate the players who are attempting to score
- Rotate which side the crosses are coming from

3. GAME TRAINING

**ORGANISATION**
- Create an area up to 44 x 50m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams with 2 neutral players in the wide areas that play in both directions for both teams
- Teams play a 1-3-3-1 formation with neutral wide players
- Balls in the goals

**EXPLANATION**

- Ball starts with the GK
- Normal game played with wide channels
- Team gets 3 points for a goal from wide channels and 1 point for a goal from normal play
- Only one player can defend in the wide area
- Wide players do not have to stay in wide areas but must begin their movement from the wide area
- If the ball goes out, start with the GK of the team who’s throw
- In it would have been

**POSSIBLE PROGRESSION**
- If the ball goes wide, players must try to beat their defender 1v1
- 1 touch finish

4. TRAINING GAME

**ORGANISATION**
- Create an area up to 60x55m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams
- Teams play in a 1-3-2-3 formation
- Large goals
- Place spare balls in the goals

**EXPLANATION**
- Regular game with regular rules

**OUTCOMES**
- Passing, receiving, dribbling, crossing, timing of runs, finishing, 1v1
- Understanding how to support the wide player based on their movement
- Combinations between wide and central players

---

NEW ZEALAND FOOTBALL TALENT DEVELOPMENT PROGRAMME
SESSION 3

PLAYING MOMENT: ATTACKING

FOCUS: ATTACKING USING THE 9 IN THE FINAL THIRD

1. WARM UP / PASSING PRACTICE

EXPLANATION
1. Start with the ball being passed between all players in each half.
2. General movements after each pass.
3. Introduce touch limits, 1, 2 or 3.
4. Ask players to find a longer pass after there have been 2 or 3 shorter passes.

ORGANISATION
- Create 2 areas up to 15m x 30m. Modify the area depending on the number and ability of your players.
- Divide the area in half using cones.
- Large goals at each end.
- Divide the players into 2 even teams.
- Have one player from each team join the team in the other half.
- Place spare balls in the goals or around the outside.

PROGRESSION
- Same as above but now when the coach blows his whistle the players are on one touch.

2. POSITIONING GAME

EXPLANATION
1. Game is started by a blue player on one side of the goal passing to a blue player on the other side of the goal.
2. Those blue players plus one more blue player become attackers.
3. The 3 blue players can only progress over half way with a pass to the striker.
4. The red striker can only defend in the attacking half of the field.
5. The blue striker is free to receive the ball and must pass the ball back to a supporting blue player in one touch. At this point the game becomes live.
6. Blue are now 4v3 trying to score in the goal.
7. The play continues in both directions until a goal is scored or until the ball is out.
8. At all times, players can only progress over half way with a pass to the striker.
9. Whichever team is defending at the time the ball goes dead (eg red) must go back to their lines. The team that was attacking (eg, blue) become the defenders and the play starts with the new red players at the start of the line.

POSSIBLE PROGRESSIONS
1. Striker can now receive and turn with the ball (first touch is still free).
2. One touch finish.
3. One touch in the attacking half.

ORGANISATION
- Create an area up to 60 x 50m. Modify the area depending on the number and ability of your players.
- Put a line 5m outside the 18 yard box.
- Red team plays in formation 1-4-3-1 with the 1 up front being the yellow neutral player.
- Blue team plays in formation 1-3-2-3 with the 1 at the back being a neutral player.
- Place spare balls in the goal.

3. GAME TRAINING

EXPLANATION
- Play starts with the neutral player playing in to the blue 6 or 8.
- Blue team is trying to score in the big goal.
- The blue full backs (2 and 5) cannot both join in the attack at the same time.
- The red team must not drop deeper than the line until the ball is played into that area.
- If the red team wins the ball they score by scoring in the little goals or getting the ball into the neutral player.

POSSIBLE PROGRESSIONS
1. The attacking team plays with a two touch limit once they are over the dotted line.

ORGANISATION
- Create an area up to 20 x 40m. Modify the area depending on the number and ability of your players.
- Divide the pitch in half using cones.
- Divide the players into 2 even teams.
- Players start on each side of the goal with one player operating as a striker in the opponents half.
- Place spare balls in the goal.

4. TRAINING GAME

EXPLANATION
- Regular game with regular rules.

OUTCOMES
- Passing, receiving, dribbling, finishing, 1v1.
- Combination play.
- Understanding how to support the forward player.
SESSION 4
PLAYING MOMENT: DEFENDING | FOCUS: PREVENTING PASSES THROUGH THE BACK 4

1. WARM UP / PASSING PRACTICE

**ORGANISATION**
- Create 2 areas up to 30 x 20m. Modify the area depending on the number and ability of your players
- Divide the pitch in half using cones
- Divide the players into 4 teams of four
- Place spare balls with the coach

**EXPLANATION**
- Ball starts with the blue team who are trying to score by passing the ball through or around the red team into one of the small goals
- Red team must move as a unit to prevent the ball being played through them
- If the blue team successfully play the ball through the red team and score in one of the small goals then the blue team start again with a ball from the coach
- If the blue team miss the goal and the ball goes out then the red team start with a ball from the coach
- If the red team intercept the pass then the game continues with the red team now trying to score.

**POSSIBLE PROGRESSIONS**
1. Pass to the other side must be in one touch
2. Make the area wider
3. One player on the defending team can now enter the opposing half to win the ball (make sure players are fully warmed up for this)

2. POSITIONING GAME

**ORGANISATION**
- Create an area up to 30 x 20m. Modify the area depending on the number and ability of your players
- Divide the players into a defending four and an attacking four
- Place a small goal centrally down one end and flags in wide areas to create gates at the same end
- Place spare balls at each end of the area

**EXPLANATION**
- The play begins with the blue team receiving the ball from the coach
- The blue team gains two points by scoring in the small goal and 1 point by dribbling through the flags
- The red team is trying to stop them. If the red team wins the ball they are trying to dribble over the end line opposite to where the goal is
- If the ball goes out, the blue team start again with a ball from the coach

**POSSIBLE PROGRESSION**
1. Red team must score in one touch or dribble through the cones on their first touch
2. Make the area wider

3. GAME TRAINING

**ORGANISATION**
- Create an area up to 65 x 50m. Modify the area depending on the number and ability of your players
- Create 3 zones just before the half way line (20, 25 and 20 x 8m)
- Red team plays in formation 1-4-3
- Blue team plays in formation 3-3-3
- Place spare balls in the goals

**EXPLANATION**
- Ball starts with the blue number 4
- The blue team are trying to score in the big goal
- Only one of the 2, 4 and 5 for the blues is allowed out of their zone at a time both in and out of possession
- If the red team win the ball they are trying to score in the small goals
- The game only stops if the ball goes out in which case it starts again with the blue 4

**OUTCOMES**
- Passing, receiving
- Recognising when to press and when to provide cover
- Working in a defensive unit to limit balls being played in between defenders

4. TRAINING GAME

**ORGANISATION**
- Create an area up to 60x55m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams
- Teams play in a 1-4-3-1 formation
- Full backs should try and be high up the field when attacking and dropped off when defending
- Large goals
- Place spare balls in the goals

**EXPLANATION**
- Regular game with regular rules

**POSSIBLE PROGRESSIONS**
1. Red team must score in one touch or dribble through the cones on their first touch
2. Make the area wider

NEW ZEALAND FOOTBALL TALENT DEVELOPMENT PROGRAMME
SESSION 5
PLAYING MOMENT DEFENDING | FOCUS WINNING THE BALL IN THE ATTACKING HALF

1. WARM UP / PASSING PRACTICE

ORGANISATION
- Create an area up to 30 x 20m
- Place flags and cones as shown
- Place spare balls at each end

EXPLANATION
Pattern 1
- Balls start simultaneously from each end
- Players are trying to progress the ball from one end to the other and can do this with any combination of forward passes (ball cannot be played square across the area)
- Both balls should not end up at the same cone, therefore players must be aware at all times where the other ball is and chose the correct pass accordingly
- Players follow their pass to the next cone or to the end of the line at each end

Pattern 2
- Same as pattern 1 above
- After a player makes the final pass to the end player, they must cut off one of the passing options or “show the player receiving the ball one way”
- The player who just received the ball must play the pass to the player that is not cut off

PROGRESSION
1. 2 touch limit

2. POSITIONING GAME

ORGANISATION
- Create an area up to 50 x 40m
- Divide the pitch into thirds (20, 5 and 20 x 45m)
- Divide the players into three even teams with the extra player being a neutral player
- Create 2 gates on halfway using flags
- Spare balls on half way with the coach

EXPLANATION
- The ball always starts from the coach
- The red team plus the neutral can score 2 points for dribbling the ball through the central gates and 1 point for dribbling through the middle zone in wide areas.
- If the red score, they must transfer the ball to the blue team, yellow now must try and defend the blue team in the same team shape.
- The yellow team is trying to win the ball and stop the blue team from scoring. The yellow player remaining in the middle zone can tackle the player trying to dribble through the gates or wide areas.
- If yellow wins the ball, they score by dribbling over the end line opposite to where the gates are. If this happens, red would become the defending team and yellow would be trying to score.

POSSIBLE PROGRESSIONS
1. Limit the teams to 2 touches

3. GAME TRAINING

ORGANISATION
- Create an area up to 50 x 65m. Modify the area depending on the number and ability of your players
- Create an end zone of 65 x 6m at the half way end
- Large goals at one end and 2 small goals at the half way end
- Blue plays a 1-4-3-1 formation
- Red plays a 1-2-3-3 formation
- Place spare balls in the goals

EXPLANATION
- Play starts with the blue GK
- Blue score either in the small goals or by playing the ball into the GK’s feet from their defending half and getting it back. If they score the game starts again.
- GK on half way is free to move anywhere within their zone
- If the red team successfully win the ball back they try and score in the large goal as quickly as they can.
- The red numbers 3 and 4 must stay in realistic positions and not push forward into the midfield.

POSSIBLE PROGRESSIONS
1. Limit the blue team to 2 touch
2. When red wins the ball in the attacking half, they must try and score within 5 seconds
3. Create zones where you want the red team to win the ball and give extra points if they can win the ball in these zones

4. TRAINING GAME

ORGANISATION
- Create an area up to 50 x 50m. Modify the area depending on the number and ability of your players
- Divide the players into 2 even teams
- Teams play in a 1-3-2-3 formation
- GK operates as a second centre back when the team is in possession
- Place spare balls in the goals

EXPLANATION
- Regular game with regular rules

OUTCOMES
- Understanding how to “show players one way” towards support
- Working as a unit to win the ball
- Quickly attacking or keeping possession once the ball is won
SESSION 6
PLAYING MOMENT TRANSITION

1. WARM UP / PASSING PRACTICE

ORGANISATION
• Create 2 areas up to 15 x 30m
• Place flags at one end to form a gate
• Divide players up into 4 even teams
• Place spare balls where the players line up

EXPLANATION
• Ball starts with player 1 playing to player 2
• Player 2 then passes the ball to player 3 with players 1 and 2 both supporting that pass
• The three players combine to find a “third man run” who then passes the ball through the end gate to the red player 4
• The ball going through the gate indicates the blue team has lost the ball. Players 1 and 2 must have immediate passive pressure on the red player 4 and “show them one way”.
• The red player 4 now must play the ball to another red player in the direction they are being shown by the blue players.
• The red players involved in the play must circulate the ball back to the start and join the back of the line.
• The blue players take up the positions of the red players (rotate the yellow player)

POSSIBLE PROGRESSIONS
1. Try different passing combinations i.e. player who plays it across must overlap

2. POSITIONING GAME

ORGANISATION
• Create 2 areas up to 8 x 16m
• Put a half way line in each area
• Divide players up into 4 even teams
• Place spare balls with the coach

EXPLANATION
• Play is started with the coach playing the ball to one of the teams (red).
• When red touch the ball, blue can send 2 players to win the ball
• If the ball goes out, red get one “strike”. Three “strikes” and the ball starts on the opposite side with blue now in possession and red sending 2 players
• However, if blue can win the ball and transfer it to their other players, they get to keep the ball and now red must send 2 players
• 6 passes can equal a goal. Play to a certain number of goals

PROGRESSION
• Make the space smaller or bigger
• Enforce a two touch limit

3. GAME TRAINING

ORGANISATION
• Create an area up to 55 x 50m. Modify the area depending on the number and ability of your players
• Large goal at one end and two small goals at the other end
• Teams play a 1-3-2-3 formation
• Place spare balls in the goals

EXPLANATION
• Play starts with the GK on halfway passing the ball into the attacking team
• The attacking team (blue) is trying to score in the large goal. If they score they get the ball back from halfway and attack again
• If the defending team (red) wins the ball, they score by quickly attacking the small goals. If they score in the small goals they now turn around and attack the big goal
• The blue team must get into their defensive shape quickly
• The GK on halfway can try and stop players scoring in either small goal
• The GK on halfway is also an option for the team attacking the large goal to play back to. If this happens, the GK must play in 2 touches

EXPLANATION PROGRESSION
1. If the team defending the big goal wins the ball, they must score within 5 seconds

4. TRAINING GAME

SETUP
• Create an area up to 55x50m. Modify the area depending on the number and ability of your players
• Divide the players into 2 even teams
• Teams play in a 1-3-2-3 formation
• Place spare balls in the goals

EXPLANATION
• Regular game with regular rules

OUTCOMES
• Reacting quickly to losing the ball
• Quickly attacking once the ball is won

APPENDIX 8
PLAYER QUESTIONAIRRE

1. Which age group are you in?
- [ ] 9th Grade 13 boys
- [ ] 10th Grade 14 boys 14 girls
- [ ] 11th Grade 15 boys 16 girls
- [ ] 12th Grade 17 boys

Read the following statements and tick the box that you agree with most:

2. The NZF Talent Development Programme training sessions were enjoyable:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

3. The NZF Talent Development Programme training sessions helped me to become a better player:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

4. The NZF Talent Development Programme sessions provide me with problems to solve:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

5. The NZF Talent Development Programme coaches are friendly and enthusiastic:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

6. The NZF Talent Development Programme coaches help me to learn how to become a better player:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

Please add any additional comments that you feel will help us make the NZF Skill Centre Programme better in the future.

APPENDIX 8
PARENT QUESTIONAIRRE

1. The communication in the lead up to the NZF Talent Development Programme was sufficient:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

2. The Player & Parent induction meeting was informative:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

3. My son / daughter enjoyed being part of the NZF Talent Development Programme:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

4. The coaching at the NZF Talent Development Programme was to an appropriate standard:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

5. My son / daughter’s technical ability has improved as a result of being part of the NZF Talent Development Programme:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

6. The Player & Parent feedback meetings were informative and helpful for us, as parents, and for my son / daughter:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

7. The NZF Talent Development Programme is good value for money:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

8. We, as parents, can clearly see what the NZF Talent Development Programme is trying to achieve:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

9. We would recommend NZF Talent Development Programmes to parents of other players:
- [ ] Strongly Agree
- [ ] Agree
- [ ] Disagree
- [ ] Strongly Disagree

Please add any additional comments that you feel will help us make the NZF Skill Centre Programme better in the future.
APPENDIX 8
COACH QUESTIONAIRRE

1. I have enjoyed coaching at a Talent Development Programme:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

2. Organising and administering the Talent Development Programme has been easy to do:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

3. The NZF Talent Development Programme curriculum is appropriate for the players involved:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

4. The kit & equipment provided by the NZF Talent Development Programme club was to an appropriate standard:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

5. The facility provided by the NZF Skill Centre club was to an appropriate standard:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

6. The players enjoyed being part of the NZF Talent Development Programme:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

7. The NZF Talent Development Programme club have provided opportunities for me to develop my coaching:
   - [ ] Strongly Agree
   - [ ] Agree
   - [ ] Disagree
   - [ ] Strongly Disagree
   Additional Comments:

Please add any additional comments that you feel will help us make the NZF Skill Centre Programme better in the future.
New Zealand Football would like to thank the following organisation for their invaluable support of Football in New Zealand.
