

Let people pay online by CREDIT CARD or by DIRECT DEBIT

- ✓ Flat 5% fee (including Visa/MasterCard fee)
- ✓ No set-up fee
- ✓ No monthly ongoing fee
- ✓ No hidden costs
- ✓ Set your own prices and let your members pay online

Clear benefits

Avoid the need to handle cash. Remove the risk of fraud & theft. Fully traceable cash flow.

The amount paid appears automatically in your online member database, making accounting and reconciliation quick and easy. One-click export of your database to Excel.

Many people don't have credit cards. The option of Direct Debit makes it easier for more people to pay online and reduces the number of people you need to chase for payment.

How does it work?

Sportsground provides an easy-to-use Form Builder that lets you create your own web input form so that people can register with you online. It's easy to add 'products' to your form, such as Subs or membership fees.

You can display your input form on your website, or communicate through your Facebook page, or by emailing out a link to the form.

When someone completes your form, they can select your 'products' and elect to pay either by credit card or direct debit. This is updated in your online member manager database, including a record of the amount paid.

Login to your online member manager database at any time to view it, modify it, or export it to Excel. You can also manually record payments if other people have paid by cash or cheque (no fees apply for manual payments).

Get Started

1 Complete the application form at

www.sportsground.co.nz/sportspay

2 You'll be notified once your account has been enabled

(this may take up to two business days)

3 Follow the instructions in the User Guide to get started

www.sportsground.co.nz/sportspay/100669/3

Note: Sportsground has engaged Debtsuccess Ltd, a fully PCI Compliant provider of billing services to perform payment processing for sports clubs, organisations and schools within New Zealand. Neither Sportsground nor anyone else other than Debtsuccess ever has access to the payments made to you. If you are already using a provider of online payments, ask them if they are fully PCI Compliant!
