

Cashmere High School App

An overview

The absentee button offers parents a chance to either ring the school or to send a message by email, explaining why a student is absent from school.

The school info section contains a lot of general school information such as school rules, NCEA and uniform regulations.

Click on this button and then on 'alert subscriptions' to edit the sports/cultural/academic groups for which you wish to receive alerts. A lot of general school information is sent to all users, but some groups with more specific information require you to subscribe to their alerts. Access to Kamar (Parent Portal) is also available under this sidebar.

The School Notices can be found via the app - this is a quick and easy way to access these.

The Term Dates section has the dates for each school term for the year as well as information about Staff Only Days and late start mornings.

The app is free, simply search "Schoolappsnz" in the app store and then select Cashmere High when prompted upon opening the app.
